Affected Population	After ASF occurred in Datong Hui and Tu Autonomous County, Xining City, in Qinghai Province, control measures such as blockade, killing and disposal and disinfection were applied, in accordance with the requirements of the Contingency Plan for ASF and Technical Regulation on ASF Control (Trial). After affected pigs were killed in the affected areas, a total of 943 additional domestic pigs were killed around the outbreak and disposed of in biosafety manner. No new outbreaks and positive samples have been found for the 6 consecutive weeks of surveillance and monitoring. Local animal husbandry and veterinary authorities organized laboratory tests and on-site assessments in the affected areas, of which results were in compliance with the regulations on the blockade lift in the affected areas, and the ASF outbreak was solved. The local government decided to lift the blockade at 00:00 clock on January 23th of 2019. The Ministry of Agriculture and Rural Affairs requires the local animal husbandry and veterinary sectors to continue to strengthen the surveillance and monitoring and take active prevention and control measures, so as to prevent the recurrence of ASF.
