Inner Mongolia-other report - submitted	-	XilinGol League	Abaga	Backyard	Bieligutai Township	44.017	114.581	12/09/2018	19/12/2018
Species	Measuring units	Susceptible	Cases	Deaths	Killed and disposed of	Slaughtered			
Swine	Animals	237	16	16	221	0			
Affected Population	After ASF occurred in Abaga County, Xilingol League, in Inner Mongolia, control measures such as blockade, killing and disposal and disinfection were applied, in accordance with the requirements of the Contingency Plan for ASF and Technical Regulation on ASF Control (Trial). After affected pigs were killed in the outbreak, a total of 637 additional domestic pigs were killed in the affected area and disposed of in biosafety manner. No new outbreaks and positive samples have been found for the 6 consecutive weeks of surveillance and monitoring. Local animal husbandry and veterinary authorities organized laboratory tests and on-site assessments in the affected areas, of which results were in compliance with the regulations on the blockade lift in the affected areas, and the ASF outbreak was solved. The local government decided to lift the blockade at 00:00 clock on December 19th of 2018. The Ministry of Agriculture and Rural Affairs requires the local animal husbandry and veterinary sectors to continue to strengthen the surveillance and monitoring and take active prevention and control measures, so as to prevent the recurrence of ASF.
