Province	Number of outbreaks	City	County	Unit Type	Location	Latitude	Longitude	Start Date	End Date:
Jiangsu-other report - submitted	-	Suqian	Siyang	Farm	Huajing Village,Nanliuji Township	33.7986	118.6736	06/01/2019	28/02/2019
Species	Measuring units	Susceptible	Cases	Deaths	Killed and disposed of	Slaughtered			
Swine	Animals	68969	2452	1369	39684	0			
Affected Population	After ASF occurred in Siyang County, Suqian City, in Jiangsu Province, control measures such as blockade, killing and disposal and disinfection were applied, in accordance with the requirements of the Contingency Plan for ASF and Technical Regulation on ASF Control (Trial). After affected pigs were killed in the affected areas, the totals of 70045 domestic pigs were killed in the affected areas, and disposed the culled pigs in biosafety method. No new outbreaks and positive samples have been found for the 6 consecutive weeks in surveillance and monitoring. Local animal husbandry and veterinary authorities organized the acceptance for laboratory tests and on-site assessments in the affected areas. The results of the acceptance were in compliance with the regulations on the blockade lift in the affected areas, and the ASF outbreak was solved. The local government decides lifting the blockade at 24:00 clock of February 28th of 2019. The Ministry of Agriculture and Rural Affairs requires the local animal husbandry and veterinary sectors to continue to strengthen the surveillance and monitoring and take active prevention and control measures, as to prevent the recurrence of ASF.								

#### Outbreak summary: Total outbreaks = 1 (Submitted)
