<b>Number of reported outbreaks</b>	submitted= 2, Draft= 0		

### Outbreak details

Province	Number of outbreaks	City	County	Unit Type	Location	Latitude	Longitude	Start Date	End Date:
Chongking-other report - submitted	-		Fengdu	Farm	Baojialu Village,Xingyi Township	29.874	107.78	02/11/2018	21/12/2018
Species	Measuring units	Susceptible	Cases	Deaths	Killed and disposed of	Slaughtered			
Swine	Animals	309	3	3	306	0			
Affected Population	After ASF occurred in Fengdu County, in Chongking, control measures such as blockade, killing and disposal and disinfection were applied, in accordance with the requirements of the Contingency Plan for ASF and Technical Regulation on ASF Control (Trial). After affected pigs were killed in the outbreak, a total of 6,814 additional domestic pigs were killed in the affected area and disposed of in biosafety manner. No new outbreaks and positive samples have been found for the 6 consecutive weeks of surveillance and monitoring. Local animal husbandry and veterinary authorities organized laboratory tests and on-site assessments in the affected areas, of which results were in compliance with the regulations on the blockade lift in the affected areas, and the ASF outbreak was solved. The local government decided to lift the blockade at 12:00 clock on December 21th of 2018. The Ministry of Agriculture and Rural Affairs requires the local animal husbandry and veterinary sectors to continue to strengthen the surveillance and monitoring and take active prevention and control measures, as to prevent the recurrence of ASF.
