Swine	Animals	4776	270	171	4605	0			
Affected Population	After ASF occurred in Economic and Technological Development Zone, Yongzhou City, in Hunan Province, control measures such as blockade, killing and disposal and disinfection were applied, in accordance with the requirements of the Contingency Plan for ASF and Technical Regulation on ASF Control (Trial). After affected pigs were killed in the affected areas, the totals of 4605 domestic pigs were killed in the affected areas, and disposed the culled pigs in biosafety method. No new outbreaks and positive samples have been found for the 6 consecutive weeks in surveillance and monitoring. Local animal husbandry and veterinary authorities organized the acceptance for laboratory tests and on-site assessments in the affected areas. The results of the acceptance were in compliance with the regulations on the blockade lift in the affected areas, and the ASF outbreak was solved. The local government decides lifting the blockade at 24:00 clock of March 23th of 2019.								
Outbreak summary: Total outbreaks = 1 (Submitted)									
Species	Susceptible		Cases	Deaths		Killed and disposed of		Slaughtered
